## Introducing the HIA GreenSmart® Program

HIA members and the wider community are already significantly aware of HIA GreenSmart® and what it stands for, however the GreenSmart® brand will be further promoted to consumers, providing considerable marketing opportunities for HIA members. GreenSmart® is being positioned to encourage the voluntary uptake of environmentally responsible housing solutions through design and construction, utilising the concept of solar passive design as the fundamental element for sustainable house design. Visit [www.greensmart.com.au](http://www.greensmart.com.au) for more information.

### GreenSmart® Professional Training Course

GreenSmart® Professionals are the keystone of the GreenSmart® Program. The Course is a three day workshop designed to equip participants with the skills for designing, building and selling environmentally sustainable housing.

#### Course covers:

- Sustainable Development;
- Passive solar design and natural ventilation;
- Design and operational issues for energy efficiency;
- Selection of water and energy efficient appliances;
- Soil and sediment control;
- Waste management and recycling
- Marketing sustainable housing to clients and how to market GreenSmart credentials.

Lunch is provided each day and participants are supplied with all course notes and a "Your Home" Technical Manual. Presenters are leaders in sustainable housing.

HIA members completing the program will receive a Certificate of Registration as a GreenSmart® Professional with HIA, allowing use of the GreenSmart® Professional Logo and Marketing Kit. Non Members will receive a Certificate of Completion.

#### Dates

Sep 15-17 2010      Dec 6-8 2010

#### Cost

HIA member \$500      Non-member \$650      add \$170 if not CITB eligible

#### Enrolment

Choose your preferred date, then complete an enrolment form and submit it with payment, or enrol online ([hia.com.au](http://hia.com.au)). **Please Note:** Payment must accompany enrolment. If claiming CITB subsidy, a valid, individual number must be given at time of enrolment.

Please read the HIA Student Information Sheet prior to completing an enrolment form and read the HIA Student Information Kit prior to attending the course. The Info Sheet & Kit are available at the HIA web site ([hia.com.au](http://hia.com.au), click Training, then Enrolment Information), or by request.

#### About HIA and HIA Training Services

The **Housing Industry Association** is the Australian residential building sector's leading industry association with some 300 staff supporting the business interests of over 42,000 builders, contractors, manufacturers, suppliers, and business partners in the industry. HIA members include businesses of all sizes; from individuals working as independent contractors, through home based small businesses, to large, publicly listed companies employing thousands of people. 85% of all new home building work is performed by HIA members, so if you want to know how HIA can help you, please contact us.

**HIA Training Services** is a Registered Training Organisation committed to delivering quality outcomes to its clients around Australia. We take the time to ensure that you will complete our training courses able to demonstrate a thorough understanding of your area of expertise. Employers and licensing authorities can be confident that you have what it takes! HIA Training Services offers a range of short courses or qualifications that help you with licensing, growing your business or furthering your career. Further information is available from the HIA website ([hia.com.au](http://hia.com.au))
